A Scientific Education with Spiritual Base in Gurukula System

This is the institution empowered by the blessings of Bhagavan Sri Ramakrishna Paramahansa, Matha Sharada devi and Swami Vivekananda along with the fantastic thoughts of the founder Sri D.M. Venkataramana.

Sri Ramakrishna School Special Feature

The school strives to blend the heritage, culture, values and wisdom of ancient India with the constantly changing needs and aspirations of modern society. It seeks to develop every student into a self-reliant, socially useful, disciplines and law abiding citizens; in other words, it aims at developing every pupil into an integrated personality.

Scientific Education

As we all know, the need of the hour is the scientific education. So we encourage the students to develop scientific skills of learning through practical seminars group discussion, science quiz, science model making and by organizing science exhibitions in the school. Moreover we regularly conduct seminar from eminent science scholars. We are practicing new technology for teaching like OHP, LCD Projector internet, Computer, Smart TV and well equipped lab. So students can digest the subject.

Gurukula system

Is the Indian ancient method of teaching. Here students and teachers are living together. A teacher can guide and rectify the students in all the areas like discipline, neatness, mannerism, tuition, health, sports, food, prayer, yoga, Dhyana, music and drawing. To build overall personality and to instigate the creativity we follow Gandhian way of living, that is 'simple living and high thinking' and the teacher can take care of 25 students in a batch. In this method we found all round development in the students.
